DETAILED ACTION

Claims 1-3 and 5-7 have been canceled. Claims 37-46 have been added. Therefore, claims 4 and 8-46 are currently pending in this Application. Claims 12-27 are withdrawn from further consideration by the Examiner, 37 C.F.R. § 1.142(b), as being drawn to a non-elected invention. The withdrawn subject matter is patentably distinct from the elected subject matter as it differs in structure and element and would require separate search considerations. In addition, a reference, which anticipates one group, would not render obvious the other.

Previous Rejections

Claims 4, 8, 30-36, were provisionally rejected under the judicially created doctrine of obviousness-type double patenting over claim 4 of co-pending U.S. Application No. 11/253,812. Since claim 4 is now canceled in '812 Application, the rejection is moot. Therefore, the double patenting rejection is hereby withdrawn.

New Ground of Rejection.

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

Art Unit: 1626

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 4, 8-11, 28-46 are rejected under the judicially created doctrine of obviousness-type double patenting over claim 4 of co-pending U.S. Patent No. 7,235,579. Although the conflicting claims are not identical, they are not patentably distinct from each other because both sets of claims are drawn to the same art recognized subject matter. A reference anticipating one set of claim will render the other obvious and it would have been obvious to one of ordinary skill in the art at the time of the invention was made. Both Applications are directed to compounds of

Formula

and there is huge overlap on the definition of the variables R1, R2,

R3, R4, R5, R6 and R7. For example U.S Patent No. 7,235,579 teach compounds of Formula I,

wherein

X is O;

R¹ is alkyl having 1 to 8 carbon atoms wherein optionally one or more —CH₂CH₂— groups are replaced in each case by —CH=CH— or —C≡C— groups,

Art Unit: 1626

~~hydrogen, alkyl, aryl, or combinations thereof;~~
 R^2 is alkyl having 1 to 4 carbon atoms, which is unsubstituted or substituted one or more times by halogen;
 R^3 is $-\text{CH}_2\text{CONHR}^5$; and
 R^5 is aryl having 6 to 14 carbon atoms, which is unsubstituted or substituted one or more times by halogen, CF_3 , OCF_3 , alkyl, hydroxy, alkoxy, nitro, methylenedioxy, ethylenedioxy, amino, alkylamino, dialkylamino, hydroxyalkyl, hydroxyalkoxy, carboxy, cyano, acyl, alkoxycarbonyl, alkoxythio, alkylsulphonyl, alkylsulphonyl, phenoxy, acylamido and acyloxy or combinations thereof, or

The instantly claimed invention teach compounds of the same Formula wherein **R1 is alkyl, cycloalkyl, aryl; R2 is alkyl optionally substituted by halogens; R3 is $\text{CH}_2\text{CONR}^5\text{R}^6$; R5 is aryl; R6 is H.** These are already covered by the compounds of claim 1, in U.S. Patent No. 7,235,579 (see above). The claimed utility of both compounds are the same which would lead one of ordinary skill in the art, to be motivated to prepare additional compounds. Therefore, the instantly claimed compounds would have been suggested to one skilled in the art.
